Nail Specialists work long hours often sitting and in the presence of strong chemical odors and vapors. Full Specialists tend to incorporate most of the above. Correct posture is of extreme importance for the physical health of the professional. Safety requirements entail diligent sterilization of tools and equipment used, good personal hygiene, and in some cases the use of gloves and facial masks.

If not a Florida resident for the past 5 consecutive years, an FBI investigation is required. Potential students with such problems will be helped with exemption procedures if applicable, and if not, they are strongly advised to register for programs where there will be employment opportunities available.

IMPORTANT NOTICE: Pursuant to Section 456.0635, Florida Statutes, you are being notified that effective July 1, 2009, health care boards or the department shall refuse to issue a license, certificate or registration and shall refuse to admit a candidate for examination if the applicant has been:

ACADEMIC POLICIES

GRADING SYSTEM

Practical work is graded based on written criteria using school-prepared practical evaluation forms. The form specifies the grading criteria and point value for each application. Each skill/application has a specific point value assigned to it, which is then totaled and converted to a percentage. Students are graded on theoretical knowledge at the end of each course. A final examination will be given at the completion of each program. The exam will consist of two (2) parts: theory and practical. Both portions of the examination are graded according to the following scale:

A	=	94% - 100%	4.00	=	Excellent
B	=	81% - 93%	3.00	=	Good
C	=	75% - 80%	2.00	=	Satisfactory
D	=	70% - 74%	1.00	=	Poor
F	=	0% - 69%	0.00	=	Failing

The above-stated grading scale will also be used to score all tests administered by this institution.

PROGRESS REPORTS

The student will receive a program report at the end of each completed course.

SATISFACTORY PROGRESS STATEMENT

Students will be judged as making satisfactory progress by maintaining a cumulative grade point average (GPA) of 2.0 at the midpoint of program. To avoid academic probation, students must maintain a minimum GPA of 75% or a C. Students maintaining less than a 75% GPA shall be counseled by their instructor, which will be noted on their progress report. Students not meeting said conditions will be scheduled for a conference with the School Director, which will result in probation. Students are expected to be prepared and meet the demands of the coursework they have chosen.

COURSE RETAKE POLICY

The course retake is offered to students who have unsuccessfully completed a course and received less than 75%. A student may retake a course twice at no charge. A student will automatically be withdrawn after failing any course in the program twice during the one enrollment period.

MAXIMUM TIME IN WHICH TO COMPLETE

Students are not allowed to attempt more than 1.5 times, or 150%, of the number of clock hours in their program of study. The requirements for the rate of progress are to assure that students are progressing at a rate at which they will complete their programs within the maximum time frame.

MEASUREMENT OF ACADEMIC PROGRAMS

The school measures all its academic programs in terms of clock hours. A clock hour is defined as a minimum of 50 minutes of instruction during a 60 minute period in the presence of an instructor.

ATTENDANCE

Students are expected to attend all scheduled classes. In order to obtain permission for an excused absence, the student must obtain prior permission from the instructor. For emergency situations, a student may bring in a doctor's note, a police report, a court order, or any other legitimate excuse in order to obtain an excused absence. All other absences are considered unexcused.

Students may not have more than five unexcused absences within a calendar month. After five unexcused absences, the student will be advised by the School Director and will be placed on probation for 30 days. If another un-excused absence occurs during the probation period, the student will be advised by the School Director again, and the student may be terminated. The State of Florida requires students to complete a set number of hours to graduate; therefore, all class time missed must be made up by the student (prior to graduation).

TARDINESS

Students must come to class on time. Tardiness is defined as arriving more than 15 minutes after the start of a regularly scheduled class. Late arrivals may be excused at the discretion of the instructor. Once a student has three (3) unexcused late arrivals, the student must be formally counseled. A counseling session will determine what actions should be taken by the student and the school to reduce tardiness. Habitual tardiness may lead to probation.

MAKE-UP WORK

Students who have been absent for any reason are required to make up any missed classes before graduating. A student must make up missed time by attending another class in session.

LEAVE OF ABSENCE

A student may be granted a leave of absence for a reasonable amount of time as determined by the School Director. The total leave of absence period may not exceed 180 days. A request for a leave of absence must be in writing, and the date of expected return must be specified. If a student does not return within the specified return date and did not notify the School, the student's contract will be terminated on the date of the scheduled return.

UNOFFICIAL WITHDRAWAL

If the student fails to attend school for more than 10 consecutive days, the school will consider the student a drop and automatically withdraw him/her from the program.

AUTOMATIC WITHDRAWAL

A student will automatically be withdrawn from the program for the following reasons:

- ✓ Failure to attend school for 10 consecutive class days.
- ✓ Failure to return from an approved leave of absence on the scheduled return date.
- ✓ Failure to maintain satisfactory progress for two consecutive modules.
- ✓ Failing any course in the program twice during one enrollment period.

PROBATION

Grades: Students who have unsuccessfully completed a course and received less than 75% will be placed on probation. A student may retake a course twice at no charge. A student will automatically be withdrawn after failing any course in the program twice during the one enrollment period.

Attendance: Students may not have more than five unexcused absences within a calendar month. After five unexcused absences, the student is advised by the School Director and will be placed on probation for 30 days. At the end of the period the student will be re-evaluated.

- Students are required to have an overall attendance rate of 70%.
- Students must achieve a grade of “C” or higher.
- Students must have a satisfactory progress report from the instructor.

If the above conditions are met, the probationary status will be lifted. Failure to achieve satisfactory progress after the probationary period will result in dismissal from the school unless a special condition is made and documented by the director. Students may appeal their probationary status by submitting an appeals letter to the School Director. All such requests will be evaluated and acted upon promptly.

The School Director may grant the student’s appeal if the student is making satisfactory progress towards a diploma despite failure to conform to the standards of satisfactory progress. A student whose appeal is accepted will continue on probation until the next scheduled checkpoint.

APPEAL POLICY

A student has the right to appeal either unsatisfactory progress and/or termination due to unsatisfactory progress. A student may appeal the following actions or terminations:

- ✓ Unsatisfactory academic progress
- ✓ Attendance
- ✓ Termination from school

The appeal process is as follows:

- ✓ The student MUST submit a letter in writing to the School Director
- ✓ The letter must be detailed, stating the reason(s) for not making satisfactory progress and/or the mitigating circumstances for the appeal.
- ✓ The letter must be received within (10) days of the termination date.
- ✓ Students may appeal termination only once during the student's enrollment period.
- ✓ The School Director shall evaluate the appeal and notify the student in writing of the decision within (10) days.

The student may not attend classes while the appeal is pending. Should a student's appeal be successful they will be expected to return to class at the beginning of the next class/course start.

Should a student's appeal be unsuccessful the student will be inform in writing. No refunds shall be made to the student until the final determination is made by the School Director. The School Director's decision is final.

STUDENT CONDUCT REQUIREMENTS

Students are expected to dress and act properly while attending classes. At the discretion of the school administration, a student may be dismissed from school for a serious incident or incidents of an intoxicated or drugged state of behavior, possession of drugs or alcohol upon school premises, possession of weapons upon school premises, behavior creating a safety hazard to other persons at school, disobedient or disrespectful behavior to other students, an administrator, or faculty member, or any other stated or determined infractions of conduct.

RE-ADMISSION

A student that has canceled or has been terminated and desires to re-enter the program of study must notify the school and follow the required admission procedures. A student that was terminated for any reason must have an interview with the School Director and show why he/she should be re-instated. The School Director has the final decision. There is no charge associated with readmission.

TRANSCRIPTS

The school reserves the right to withhold a transcript until all financial obligations have been satisfied. There is a \$10 service fee for each transcript requested, and two weeks' notice is required. Official transcripts may be released to third parties, given receipt of a written request by the student. To request a transcript to be released to a third party, a "Release of Student Information Form" must be requested from the school's admission officer. The form must be completed and returned to the school. To expedite the request, please remember to attach the \$10 nonrefundable fee.

GRADUATION REQUIREMENTS AND DIPLOMA

The school considers a student that has completed all his/her required program hours and services as a "candidate for graduation"; however, the student will not receive a diploma until he/she complies with the following requirements:

World of Beauty Academy accepts payment for tuition, books, equipment and other fees through cash payment, VISA, MasterCard, or personal or third party checks.

STUDENT SERVICES

CAREER DEVELOPMENT AND PLACEMENT

The Student Services Director serves as a liaison between the graduates and the beauty industry. Information on job search techniques is provided to students and graduates based on the current needs of local businesses and the community. However, no employment information or placement assistance provided by the school should be considered either expressly or implied as a guarantee or promise of employment, the likelihood of employment, an indication of the level of employment or compensation expected, or an indication of the types or job titles of positions for which students or graduates may qualify.

This assistance consists primarily of educating students in developing the ability to successfully perform these tasks as they begin to seek employment. These tasks are taught during and towards the end of each program.

- ✓ Preparing resumes
- ✓ Developing job interviewing skills
- ✓ Identifying job position openings
- ✓ Following up with employers after interviews
- ✓ Negotiating wages and benefits
- ✓ Maintaining employment once hired
- ✓ Securing opportunities for advancement once hired
- ✓ Developing and utilizing a network of professional contacts who can aid in the job search effort

A successful job search is dependent upon the confidence, willingness, and preparedness of the applicant. Students and graduates are encouraged not to place restrictions on their job search endeavors regarding location, starting salary, and specific benefits. Any employment students or graduates may obtain through the school's assistance will, in all probability and likelihood, be an entry level position.

Throughout their program, students will receive instruction on resume preparation, market research techniques and interviewing skills. While in training, students are constantly advised regarding opportunities for job interviews, how to prepare and appear at job interviews, and how to conduct themselves during job interviews. Students will compose resumes and letters of introduction. The school will offer helpful reference sources to assist students in locating firms and geographic areas offering employment opportunities related to their training.

The school shall not deny admission or discriminate against students enrolled on the basis of race, creed, color, sex, age, disability, sexual orientation or national origin. The school will reasonably accommodate applicants and students with disabilities to the extent required by applicable law.

EMPLOYMENT DISCLAIMER

The staff and faculty are committed to assisting graduates to find gainful employment but cannot guarantee employment to any student, recent graduate, or alumni of the school.

ACADEMIC COUNSELING

Faculty office hours will be noted in the appropriate course syllabus. Faculty members will be available a minimum of two hours each week to provide student counseling. Staff members will be available in the administration office during office hours. A student may contact either an instructor or the School Director if one is in need of academic counseling services.
